AESTHETIC FLUENCY SCALE

This scale was developed by Jeff and Lisa Smith to measure variation in art knowledge. It has been widely used in lab, online, and museum contexts. The first publication was here:

> Smith, L. F., & Smith, J. K. (2006). The nature and growth of aesthetic fluency. In P. Locher, C. Martindale, & L. Dorfman (Eds.), *New directions in aesthetics, creativity, and the arts* (pp. 47-58). Amityville, NY: Baywood.

Other citations relevant to its use and validity are here:

Note that a Revised Aesthetic Fluency Scale, with both 36-item and 10-item versions, was published in 2023. Hard copy and Qualtrics versions are available at the OSF archive.
