Final Items and Measurement Procedure for the Creative Thinking Profile

Citation: Cromwell, J. R., Haase, H., & Vladova, G. (2023). The creative thinking profile: Predicting intrinsic motivation based on preferences for different creative thinking styles. *Personality and Individual Differences*, *208*. https://doi.org/10.1016/j.paid.2023.112205

Instructions: Everyone has the capacity to solve problems creatively, but they may prefer different approaches to help them be more effective. There is no one "correct" way to do it. Keeping this in mind, please indicate how you like to solve problems by completing the following sentence: "***When working on projects or tasks, I am someone who enjoys…***

Construct	Items
Divergent Thinking	1. Coming up with multiple creative solutions to a problem. 2. Identifying many new ways to achieve project goals or objectives. 3. Elaborating ideas to solve a problem more effectively. 4. Generating many different ideas to solve a problem. 5. Evaluating many ideas to find the best possible solution to a problem.
Bricoleurgent Thinking	6. Exploring new uses for objects or materials. 7. Re-purposing existing materials to find new uses. 8. Tinkering with objects or materials to discover what they can do. 9. Discovering new uses for objects or materials. 10. Thinking of new and unconventional ways to use existing materials.
Emergent Thinking	11. Exploring an idea without fully understanding the problem yet. 12. Improvising on ideas with little preparation or planning. 13. Changing the target outcomes of a project. 14. Evaluating ideas without clearly understanding the criteria of success. 15. Generating ideas without strongly understanding the problem.

Notes: We recommend randomly presenting these items to participants during data collection to make stronger comparisons with the results from this paper. These items may be used for non-commercial research purposes with appropriate citation, but commercial use is subject to copyright legislation.

Recommended response options to measure the items above:
1 = Not at all
2 = Very little
3 = A little
4 = Moderately
5 = Much
6 = Very much
7 = An extreme amount
