Creativity Measure (Kapoor, 2015)

Kapoor, H. (2015). The creative side of the Dark Triad. *Creativity Research Journal*, *27*(1), 58–67. https://doi.org/10.1080/10400419.2014.961775

Instructions: Listed below are a number of situations. Each situation can be taken forward in one of three ways, as mentioned in three options that follow each situation. Read each option carefully, and mention how likely would it be that YOU would engage in that option.
DO NOT FOCUS ON THE OUTCOME OF THE SITUATION, BUT ONLY ON WHAT YOU WOULD DO.
There are no right or wrong answers. Please respond as honestly as possible.

1. Your friend lent you a book to read a few weeks ago. Unfortunately, you lost the book. Your friend has asked you to return it soon since he/she hasn't read it yet. You would...
    - Apologize and offer to narrate the story in as realistic a manner as possible. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Do not mention the book to your friend. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Tell your friend that it wasn't that great a book after all, and ask him/her to watch the movie adaptation instead. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

2. Your younger sibling has an essay to write on a rather general topic. He/she has asked for your help. You would…
    - Invite your sibling's friends over; have them discuss their essays, and then combine their ideas to form a new essay for your sibling. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Help by researching the topic with your sibling and framing the essay. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Help by making a story about the topic and make the main issues characters in the story. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

3. You want to go for a movie with your friends, but cannot decide on one common movie out of two options. Once at the theatre, you would…
    - Flip a coin to decide which movie you'd go for. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Indicate that the movie you do not want to go for has got terrible reviews in the morning paper. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Take a random box-office poll, and go for the movie that the majority recommends. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

4. You've gone to a café to get some coffee, but the server says that they've run out of sugar. Assuming you take sugar in your coffee, you would…
    - Go to the bakery nearby and ask for some of their powdered sugar, explaining the situation you're in. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Buy the coffee anyway and drink it without sugar. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Pretend that you have low blood sugar; convey this to the server and tell him/her to get you sugar from somewhere else. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

5. You are an employee at a company. Your team has to design a campaign that increases the sales of a given product. You would…
    - Work with the team to meet the deadline. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Devise a new strategy that subtly communicates that your product is better that the competition, using testimonials from customers who've switched products. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Devise a new strategy involving current users of the product to attract new customers. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

6. You are required to make a presentation in class on a general topic, which you completely forgot about. You would…
    - Start with an extempore presentation and midway, pretend you received an emergency phone call that needs your attention. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Make an extempore presentation based on your general knowledge and invite class participation. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Own up and present it in the next class. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

7. You are hosting a buffet lunch at a restaurant in a hotel, but are not happy with the seating given to you and your guests. You would…
    - Notice that another restaurant in the hotel (which is close to the buffet) can provide better seating, and ask the manager to open that area for you and your guests. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Ask the manager to resolve the situation. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Claim to the manager you are an acclaimed food critic, and if the fault is not corrected immediately, he can expect a harsh review. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

8. You are travelling in the First Class compartment of a train, with a Second Class ticket. The TC catches you in the train. You would…
    - Pretend that you're mute and cannot understand what the TC is saying, thus ignoring the TC. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Pay the fine. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Apologize and say that you mistook the compartment since you forgot your spectacles at home. (If you were wearing spectacles, say you picked up your sibling's spectacles instead). (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

9. Your mother asked you to finish some household chores, including cleaning the living room and some shopping. You have a party to go to soon. You would…
    - Order the groceries by phone, and finish the housework yourself. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Finish as much as you can and then go to the party. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Ask your friend to come pick you up. On his way, ask him to do the shopping, and once he's home, get him to help you finish the housework too. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

10. You are the co-editor at the local newspaper. You are supposed to organize a way to get additional writers and articles for your paper. You would…
    - Offer unpaid internships at the local paper. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Ask your friends if they'd like to contribute. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Get a local celebrity to be the guest editor for one issue, and advertise a chance for the readers to meet him/her and contribute content to the paper. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

11. Someone, who you do not like, sees you in a bookshop and waves with a book in hand. He/she is coming over to talk to you. You would…
    - Smile back and notice the book that he/she is holding and start moving the conversation toward to topic of the book/the author. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Pretend that you have a movie to go to and excuse yourself. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

    - Pretend to have had an accident earlier, which caused you to lose most of your memory. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

12. You want to exercise every morning, but have trouble waking early. You would…

- Sleep early, set an alarm and make sure you wake up. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Convince a friend who lives close by that he/she should also lose weight, and have them wake you every morning. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Set an alarm with a ringtone that says, "Lose some weight!" / "Run run run!" repeatedly. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

13. You've packed your lunch in the morning, but forgotten to put in a spoon. You're working through lunch time, and realize you can't eat properly. You would…
    - Try and eat anyway. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Tell a colleague, who has a spoon, that his senior needs a spoon for lunch. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Devise a spoon out of some paper and eat your lunch. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

14. Your mother's birthday is coming soon and you'd like to do something special for her. However, you do not have enough money. You would…
    - Spend the day going through old photo albums with her and then make her a nice meal at home. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Try and buy her something within your budget and spend the day with her. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Ask a friend who's an artist to make a portrait of her/a musician to write her a song. Gift this to her (without mentioning your friend), and then make her a nice meal at home. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

15. You had borrowed a white shirt/top from a friend. While you were wearing it, you noticed a grease stain at one corner. From what you could remember, the stain hadn't been there before you had borrowed it. You would…

- Go to a local designer and ask him/her to improvise and make it better. (PC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Try and get rid of the stain. (Neu)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

- Cover it up with a small patch of different coloured fabric; try and convince your friend that it looks better now. (NC)

1 = *Extremely Unlikely* to 5 = *Extremely Likely*

Scoring

PC: Positive-creative option; NC: Negative-creative option; Neu: Neutral Option.

Average the likelihood scores for positive, negative, and neutral options across items, to yield overall likelihood scores for engaging in positive creativity, negative creativity, and neutral response options.

Forced-Choice Scoring

Have participants choose only one among the three options for each situation and then compute the frequency of positive-creative, negative-creative, and neutral options.
